# 10 combinable meeting rooms

## *The Project*

A prestigious office of lawyers in Milan has chosen PromiGroup to realize 10 multifunctional meeting rooms, with the most innovative technologies in the IT market.

The project, which has started the last autumn, in view of an imminent relocation of their office, has put up a high qualified technical and commercial team, which has been able to understand the needs of the client, showing the best solutions, through some campuses, realized in 2 technological showrooms of our partner.

***“We’ve talked with several suppliers, but we’ve chosen PromiGroup because it is the one that has best met our needs, and we’ve found it to be more present, both in the installation phase and in the after-sales phase. Moreover, it’s the one which has made us a better price.”***

***IT Manager Client***

During the **realization phase** our certified technicians have **co-worked** in a proactive way with the team of architects and the furniture suppliers, hired by the client, showing their ability to face the problems, arose during the works, and to **complete the installation of the components within the agreed time**, guaranteeing the operativity of the office from April.

The 10 multifunctional meeting rooms allow their use both **in an independent and in a multiple way**, which by joining each other, 2 by 2, they create single auditorium.

The meeting rooms are equipped with **monitors, audio boxes, microphones, desktop connectivity systems and touch panel control** with programming of customized scenarios: essential products for the creation of an **interactive environment, able to combine design, technology and efficiency**.

Are counted, moreover, the work of supply and **installation of the Rack**, in the control room and the network cabling, realized by our technical team.

A complete picture is given also by the test activity and the **training** realized at the end of the project.

PromiGroup

**The satisfaction of the client** has been such as want an increase of the project for 2 new locations: an auditorium and a meeting room, which have to be finished by next September.

*“PromiGroup has been very reactive in front of all of our demands, in particular because we have changed many times the project. The company is still in operation because when we relocated our office, we’ve understood that we wanted to integrate the project with other new rooms. We already have a new plan to create new meeting rooms, and we are going to integrate the room in operation with the new one very soon.”*
